INDY DAYS  
RACE INTO EXCELLENCE

MAY 14 & 15

[www.regousa.com/IndyDays](http://www.regousa.com/IndyDays)

## About

REGO-FIX USA is hosting “Indy Days: Race Into Excellence,” an open house at its Center for Machining Excellence (CME) in Whitestown, Indiana, on May 14-15, 2025 featuring the latest manufacturing technology and demonstrations.

## CME Partner

GenSwiss will be on-site May 14-15 from 9am-6pm daily to provide state-of-the-art technology exhibits and offer best practice guidance on tooling for Swiss-Type CNC Machines. Ready to be part of the action? Secure your spot in the lineup at [www.regousa.com/IndyDays](http://www.regousa.com/IndyDays)

### Micro Turning

Tools well-suited for creating small, intricate components in high volume for a number of industries, predominantly automotive, medical, defense and electronics-related sectors.

### Thread Whirling

Beneficial for machining complex profiles and hard materials, such as titanium and stainless steel, making it a preferred technique for high speed production of custom thread profiles.

### Live Tool Holders

Standard live tooling suited to production work, where the finish, tolerances and cutter life are critical. Potential applications include: milling, boring, drilling, tapping, turning.

**And More GenSwiss Products On Display at The Open House...**
