

## REACH Compliance Declaration

May 3, 2018

The letter establishes the opinion of Genevieve Swiss Industries, Inc. regarding the status under the European Union (“EU”) Regulations on Registration, Evaluation, Authorization and Restriction of Chemical Substances (“REACH”) of the products supplied by Genevieve Swiss to your organization.

Genevieve Swiss has done an examination of our vendors and of the materials we use in manufacturing. Based upon our examination, we have determined that we are only affected by REACH as a downstream user within the meaning of the REACH Regulation. As a downstream user, we rely on and have an interest in our suppliers registering their chemicals in order to ensure the supply continuity for and quality of products supplied by Genevieve Swiss. Therefore, Genevieve Swiss will be acting in conformity with the legal requirements.

We only manufacture and export to the EU products that are not covered by REACH and ROHS. The products manufactured or sold by Genevieve Swiss are not covered by the compulsory registration under REACH and ROHS.

Furthermore, our products are below the prescribed minimum quantity outlined by REACH regulation.

We thank you for your interest, and welcome any further questions.

Best regards,

James Gosselin  
President,  
Genevieve Swiss Industries, Inc.
